

Subject: Narrative Reinforcement – Final Week Strategy

From: Governor Henrik Stahl

To: National Renewal Party Regional Coordinators

Date: May 24, 2025

Colleagues,

As we enter the final phase before the election, we must unify our messaging across all channels. Push our core theme: "Tradition, Responsibility, Prosperity."

Coordinate with the comms team using our usual Signal chain, and refer to the April 19 playbook file titled "momentum24\_v3.pdf."

Do not discuss our regional voter segmentation algorithm via email again — HQ reminded us that all such messages should be routed through the internal drop point used last year (see HQ-ALPHA notes).

Be alive to opportunities, and let's move forward with confidence.

Governor Stahl
